# Asp.net Developer

Brain Station 23 Ltd

We are looking for some .NET developer responsible for the development, maintenance, and deployment of applications. Your primary focus will be developing high-end applications based on .NET and .NET Core by following proper architecture patterns and best practices. Therefore, a commitment to collaborative problem solving, sophisticated design, and creating quality products is essential.

## Skill Requirements

- Ø Must have minimum 2 years of solid experience with a minimum of 3 Major Projects.
- Ø Must have a good working experience with **ASP.NET MVC, Web API, and ASP.NET Core**.
- Ø Must have strong knowledge on **C#** (if know WPF, SignalR barter), .Net Framework using Visual Studio.
- Ø Must have strong knowledge on **SSRS, RDLC** report.
- Ø Expertise in **C#, SQL Server 2008/2016 with SSMS**.
- Ø Must know Entity Framework and/or Entity Framework Core.
- Ø Good knowledge of JavaScript / jQuery / React / Angular JS 1/2/4/5.
- Ø A clear understanding of OOP, design patterns, clean code, and coding standards.
- Ø Must have solid understanding of the **SOLID design principle** and **Microservice Structure**.

Ø Must have good problem solving skill.

Ø Understanding about different task runners like grunt/gulp will add advantage.

Ø Must have good working experience with a version control system (i.e. Git, TFS).

Ø Excellent written and verbal communications skills is a must.

# Job Responsibility

- Ø Collaborate with cross-functional teams to analyze, design, and development.
- Ø Ability to adapt to the fast pace development model is crucial.
- Ø Working experience in Agile Methodology.
- Ø Hands-on experience in leading projects or being a significant contributor to software development and delivery.
- Ø Participate in design meetings and design decisions.
- Ø Take part in development as a member of our development teams.
- Ø Analyzes technical system problems, and designs and implements effective solutions.
- Ø Translate client requirements into technical implementation.
- Ø Perform project related communication with onshore counterparts.
- Ø Plan and execute unit tests.
- Ø Provide technical leadership if required to the fellow team members.
