```
/* =============== git Branching workflow ================

            Branching Workflow
               /           \
    long Running Branches       Topic Branches
        - master branch       - typejs
        - development branch      -issue solve
        - newFreature branch

        long branch always work but issue branch not long time work
        that affter issue solve we will merge the master branch

*/
```
